- **Programming Languages:** JavaScript, ECMAScript, TypeScript
- **Web Technologies:** HTML5, CSS3
- **Tools:** Version Control (GitHub), Figma

Language Skills:

B1 in English

Experience

Front-End Developer at XAI Technology

(July 2024 – Present)

- Developed and maintained responsive web applications using Next.js and TypeScript.
- Worked with cross-functional teams to integrate Next.js features with backend services.
- Enhanced performance and SEO through code splitting, lazy loading, and SSR.
- Collaborated with design teams to convert Figma designs into high-quality, reusable code components.
- Utilized TypeScript for static typing and to improve code reliability and maintainability.
- Implemented state management with Tanstack Query to handle data fetching and caching efficiently.
- Leveraged Tailwind CSS to quickly develop and style responsive, pixel-perfect UI components.

Front End Developer at Domar

(Apr 2024 - July 2024)

- Assist in writing clean, efficient, and maintainable code using HTML, CSS, and JavaScript.
- Implement responsive designs to ensure websites are mobile-friendly.
- Collaborate with back-end developers to integrate components via RESTful APIs.
- Suggest and implement UI/UX improvements to enhance user experience
- Optimize web pages for speed and scalability using lazy loading and code minification.
- Developed and enhanced **reusable components**, reducing duplication and speeding up the development process.
- Worked with **Git version control** to manage codebase changes, conduct merges, and maintain a clean repository.

Education

Cairo University

(2022 -Present)
